

CHAMPION IS OUR DNA

In 2010, world-class professional racers have proven that KMC CHAIN is the DNA leading to the championship.

KMC CHAIN attributes this achievement to her technical innovations and professional racers' on-field experiences, as well as the continuous feed-back from endusers like you!

This lets KMC products stand out among all other brands.

So, "Champion is our DNA" not only applies to those racers but also to the KMC-team as well.

Katie Compton: 2011 UCI World Cup Cyclocross Ranking #2 with KMC X10SL

HL710 Color options

'KMC Half Link Kool Knight Chain' is specially designed for extreme sports. By both utilizing the unique 'L' design to strengthen its durability, as well as seriously reducing damaging the chain caused by extreme stunts, freestyle and handrail gliding. This chain effectively decreases the chance of breakage.

Fits all 1/8" single speed- or internal gear systems.

Unique Guarantee

The life of your new KMC XX-SP chain is guaranteed to last longer than other brands. Double X Durability treatment includes all X-SL, X-L and X1 models. If you are not satisfied with the durability of your chain, mail to DoubleX@kmcchain.us. Should you have a valid complaint you will receive a replacement chain with our compliments.
